

Sebastian Musiał

Senior Full-stack & AI Engineer.

For 10+ years I've been building web and mobile products in JavaScript and TypeScript — from architecture and design systems to production. Today I work AI-native: with AI agents I ship faster, without cutting corners on quality.

ABOUT

Hi, I'm Sebastian.

I started freelancing before university, building websites and apps for small businesses. Since 2014 I've been at Chilid, now Boldare, building products for clients all over the world — from fintech and e-commerce to SaaS.

Every day I write code together with AI agents. And when a product needs it, I build **AI** into it: assistants, RAG or automation.

EXPERIENCE

One company, many products.

- 2025** ● **Full-stack & AI-first** Now
A mobile app from the API to the screens, and AI agents in everyday work.
+ React Native + Expo + Next.js + Claude Code + Cursor
- 2023** ○ **Generative AI** AI
AI assistants, LLM proofs of concept and automation for clients.
+ OpenAI API · Assistants + LangChain + NestJS + WhatsApp Business API
- 2019** ○ **Senior Front-end Developer**
Long product projects for clients in the US, Canada and the Gulf. Code review, and technical interviews from 2021.
+ Storybook + RTL · i18n + CI/CD · Git
- 2018** ○ **Boldare**
Chilid becomes Boldare. Lead Front-end on an app built from scratch, team coordination, internal company talks.
+ TypeScript + NgRx + RxJS + Jest + Docker
- 2016** ○ **Front-end Developer**
First single-page apps in React and Angular, React workshops for interns.
+ React + Redux + Angular
- 2014** ○ **Chilid**
Started as a Junior Front-end Developer: websites and apps for agency clients.
+ JavaScript + CSS / SCSS + WordPress
- 2010** ○ **Freelance**
Commissioned websites and apps, tailored for small and medium businesses.
